3 For This Course	2

This page lists resources for Augusta University students to receive help with their course of studies, in general, for students of the School of Computer and Cyber Sciences, and for this course in particular.

1 In General

Many resources are available to help you be a successful student:

- If you are food insecure, you are not alone¹, and the Open Paws Food Pantry² will help you.
- For tutoring resources, consult the Academic Success Center³ (or “ASC”). It can help you, among other things, in the areas of time management, test preparation and study strategies.
- Student Counseling & Psychological Services⁴ (or “SCAPS”) is here to assist students with a variety of personal, developmental, and mental health concerns.
- The Writing Center⁵ can help you with any written, oral, or multimedia project.
- To get help with technologies, refer to our Instructional Technology Support⁶ correspondent Sienna Sewell⁷.

2 For Students of the School of Computer and Cyber Sciences

2.1 School of Computer and Cyber Sciences Tutoring Center

The School has a tutoring center that can be reached:

¹<https://www.wjbf.com/csra-news/nearly-36-percent-of-college-students-are-hungry/>

²<https://www.augusta.edu/student-affairs/open-paws.php>

³<https://www.augusta.edu/academicsuccess/>

⁴<https://www.augusta.edu/counseling/>

⁵<https://www.augusta.edu/pamplin/writingcenter/>

⁶<https://www.augusta.edu/continuity/index.php>

⁷<https://spots.augusta.edu/sSewell/>

- On discord⁸,
- During their tutoring hours (hours posted on the door and on discord), in University Hall 129.

2.2 ACM Club

The Augusta University chapter⁹ of the A.C.M¹⁰ is one of the university's best resources for Computer Science, Information Technology and Cyber Security students. It provides a platform to network with other students in similar majors, presenting countless opportunities to not only expand the people you know, but also a fantastic place to learn and ask questions. To learn more, you can sign up for the newsletter, or attend one of the subgroup meetings (meeting times and locations are listed on the website¹¹).

2.3 Other Club Activities

The Augusta University Game Design Club and Girls Who Code College Loop “will be continuing activities in full force this year”. Notifications for upcoming activities will be shared in class alongside school-wide emails.

3 For This Course

The instructors and UCAs should be your first point of contact for any questions regarding the content of this class. Check your syllabus for how to reach out your instructor. For this semester, your UCAs are:

Richard Kelley:

- RIKELLEY@augusta.edu¹².
- Responsible for Section F's lab.
- Also present during Section E's lab.
- I typically see discord notifications first, so feel free to ping me there¹³. Email I will see but not as fast. Teams doesn't like to send me notifications.
- Office hours are Monday and Wednesday, 4:30-6:30pm.
- I'm a computer science major towards the end of my degree, and I'm always happy to see new computer science students and their different approaches to solving problems.
